

# HCC *And You*

## HCC

**Heritage Christian College** was created by Ghanaians to serve and elevate other Ghanaians. HCC is intensely focused on producing graduates who are as likely to start a business as they are to seek a job.

Students enjoy access to cutting-edge technology on a near-paperless campus, and they absorb lessons from a highly accomplished faculty in an environment that instills Christian values and ethics. HCC's core values are the exact same values that will improve quality of life in the nation of Ghana and will serve as a model for the rest of the still-developing world.

## *And You...*

HCCF is a front-lines player in the battle to win souls and change lives. What HCC does matters. It matters to people who are not part of HCC, but who watch from the sidelines in places like the United States. Tremendous amounts of American resources pour into Third World countries, Africa perhaps foremost among them. The stakes are high and HCC's views, moves, needs, and directions matter to Christians in the United States and, in fact, everywhere.
